Dedication beyond expectation

Your route to the future

ACCURATE

Electrical Contracting **S.A.E**

We construct your trust

www.accurate-elec.net

About **ACCURATE** *Group*

ACCURATE group was founded by ambitious Egyptian engineers, joining a group of highly skilled employees with years of on hand experience for the sole purpose of forming a medium sized and highly professional structure specialized in construction, manufacturing, predictive maintenance and trading activities for electrical and instrumentation industrial projects.

ACCURATE group has three separate entities:

- **ACCURATE electrical contracting S.A.E** was established in 2004, covers construction, predictive maintenance and trading activities in Egypt / Africa and based in Alexandria, Egypt.
- **MASAR engineering industries S.A.E** was established in 2010, covers sheet metal manufacturing and trading activities in Egypt, Africa and Middle East, based in Alexandria, Egypt.
- **ACCURATE electromechanical projects W.L.L** was established in 2011, covers construction, predictive maintenance and trading activities in Gulf area and based in Doha, Qatar.

This kind of structure not only enables us to deliver a dynamic and professional service to our customers, but also the multidiscipline service gives them the assurance that, their interest is served after a deep study and full awareness of the different aspects of the project. Nevertheless, no matter how big or small the project, our customers are rest assured that it will be completed on time, within their budget and to the satisfaction of even the most exacting clients.

CORPORATE MANAGEMENT INVOLVEMENT

ACCURATE group management is actively involved in the operation of the group companies and provides a solid base of electrical projects experience.

Project owners receive personal attention of **ACCURATE group** principals and officers all the time.

ACCURATE group enjoys an outstanding relationship with its customers and the volume of projects based on direct recommendation from customers is a direct result of the group's appreciated performance.

QHSE
Management System

CORE VALUES

Accuracy ... *Perfection Demanding*

In **ACCURATE group** we maintain high standards despite pressing deadlines; do work right the first time; produce accurate, thorough, professional work; maintain continuous improvement.

We make sound decisions in a precise way; base decisions on fact rather than emotion; analyze problems skillfully; use logic to reach solutions.

Teamwork ... *People Focused*

We recognize our primary asset is people. To be successful, **ACCURATE group** place to work. We provide opportunity and encouragement to help our people reach their potential. We work with our clients as a team. Mutual respect provides the foundation for our success.

CORE VALUES

Integrity ... *Highest Ethical Standards*

We remain true to our founding values of quality, honesty and hard work. We have the highest ethical standards. We “do the right thing.” **ACCURATE group** is a business based on trust.

ACCURATE group is consistently associated with the high standards of service, quality, personal attention to customers, and integrity. Because of this reputation the group has the privilege of leading some of the highest profile, often one-of-a-kind, projects in Egypt.

Commitment ... *Client Driven*

We are proactive in finding solutions for our customers that best achieve their goals. Lasting relationships are the lifeblood of our business.

We want the customer to feel that our staff is even more committed to the effort than their own staff...that's what distinguishes us. Personal attention to our customers as individuals...caring about them as individuals. We always refer to our customers, as our “respected friends.”

at **ACCURATE**, safety and quality of the products / services is held at the utmost importance. Third party authorities has validated the suitability of our products / services to standards.

QHSE Policy

ACCURATE is committed to providing a high quality products / services to our Clients which accurately interprets their requirements and satisfies their expectations in an innovative, economic, secure and efficient manner

ACCURATE regards Health, Safety and Environment management as an integral element of our business; based on this overview we are committed to protect people, equipment, physical assets and to carry out our work activities in a way that seeks to meet the interests of our clients, the general public and employees regarding our impact on the environment.

Our Quality, Health, Safety and Environment Management System is based on the requirements of ISO 9001:2015, 14001:2004, OHSAS 18001:2007 and statutory & regulatory obligations

The objective of the Company is to ensure that our products / services are fulfills the aims, objectives and satisfaction of our customers and clients.

ACCURATE will achieve this objective through :

- The use of the QMS as a tool for achieving best practice throughout the business and across the group as a whole.
- Ensure continuous improvement and client satisfaction.
- Take reasonable care of our own safety and the safety of others who may be affected by what we do or fail to do.
- Minimize waste, pollution risk and use energy wisely.

We construct your trust

About ACCURATE Electrical contracting S.A.E.

Since its establishment in 2004, **ACCURATE** electrical contracting, has had a continuous, successful operation and has been one of the leading electrical and instrumentation construction contractors in Egypt.

The company has specialized in execution of construction projects, including oil & gas installations, petrochemicals, cement plants, Ammonia & Urea fertilizers plants, steel making plants, power plants and other industrial facilities.

ACCURATE takes pride in its perfect reputation for competence, integrity and stability.

Services

Engineering Services

ACCURATE provide many engineering services such as projects material take off, design review, detailed engineering, preparation of work-shop drawings & installation of typical details, electrical & instrumentation consultation services and finally updating of approved for construction drawings to create the actual as-built drawings.

ACCURATE's services are provided with the necessary expertise and efficiency to ensure a maximum profitability consistent with high quality performance to the customer.

Services

Construction Services

Construction of Full E&I Package, that includes but not limited to :

- Installation & Test of HV, MV, LV Switchgears.
- Installation of Power transformers with all its required accessories and tests
- Installation of MV & LV Bus Ducts
- Installation of service panels and DCS panels
- Laying and Termination of HV, MV, LV, Control and Instrumentation cables
- Installation of Cable Trays & Conduits
- Installation of Lighting, Earthing and Lightning Systems
- Installation of all low current systems such as , Fire Alarm, CCTV, PA/GA, Network and security systems.
- Installation of Instrumentation hookups and S/S tubing.
- Instrument Calibrations and Loop Test

Services

Supply & Provision of Material

ACCURATE has a wide experience in supply & provision of material and equipment associated with electrical and instrumentation construction activities. This can include the material specification review, confirming the material compliance with projects standards, proposing alternatives, checking and inspection while manufacturing process & attending factory acceptance test.

Project Management

ACCURATE's main core business is the project management with all the related phases such as initiation, planning, execution, control and project close-up. This include all the relevant processes budgeting, estimating, planning, cost control, risk analysis, quality assurance and control, communication, checking of non conformance, proposing of corrective and/or preventive action up to the project hand-over.

ACCURATE offers to perform services on long-term basis using a call-out contract for overhauling & revamping works, shut-down periods, maintenance and modification activities, construction works needed by projects department of running plants.

Services

Test, Pre-commissioning and Commissioning Works

ACCURATE also has a strong arm in all the test, pre-commissioning and commissioning works. This includes the electrical test such as primary and secondary injection, hi-pot test, relay setting and coordination as well as the instrumentation related tests such as pressure tests, calibration, loop tests & function test.

ACCURATE is providing highly qualified supervision and direct professional trades for construction & commissioning phases on hiring basis in accordance with customer requirements.

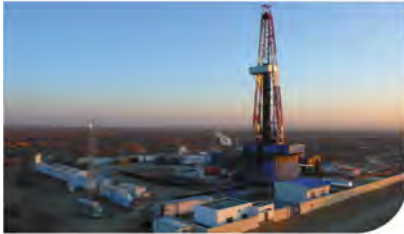

Predictive Maintenance services

Condition Monitoring puts you in the driving seat to actively prevent breakdowns and optimize maintenance resources where and when they are needed.

Predictive maintenance solution opens up innovative new possibilities for companies: Data from sensors monitoring machine condition is automatically reviewed to pick up any patterns that indicate a possible fault for all MV and HV power assets such as:

- MV switch gears and cable boxes, Transformers & SF6 Circuit breakers
- Overhead transmission lines & Cables
- Motors and Generators starting from 4 KV

Oil And Gas

Assil & Karam Project

Total Man-Hours : 425,800
From : (Dec. '13) to (Mar. '15)
Owner : Badr El Din Petroleum Company (BAPETCO)
Client : Petrojet
Scope : All Electrical and instrumentation Package

Saqqara Filed Development

Total Man-Hours : 150,000
From : (May.'07) to (May.'08)
Owner : Gulf Petroleum CO. (GUPCO) / BP Egypt
Client : British Petroleum / Petrojet
Scope : All Electrical and instrumentation Package

Maximization Of C2/C3 Instrument Works

Total Man-Hours : 120,000
From : (Nov. '09) to (Jun. '10)
Owner : Gasco
Client : Petrojet
Scope : All instrumentation Package

Fire Detection & Fire Fighting Of ELNG Refrigerant Bullets

Total Man-Hours : 60,000
From : (Apr. '09) to (Feb. '10)
Owner : Egyptian Liquefaction Natural Gas
Client : Egyptian Liquefaction Natural Gas
Scope : Installation of fire detection and firefighting systems

Oil And Gas

Fieran Fire Detection & Alarm System

Total Man-Hours : 50,000
From : (Jul.'05) to (Dec.'05)
Owner : Belayim Petroleum CO. (PETROBEL)
Client : Alexandria For Petroleum Maintenance (PETROMAINT)
Scope : Installation of fire detection and firefighting systems

Y1-B & Y2-B Flow Station Offshore Platform

Total Man-Hours : 47,000
From : (Aug.'08) to (May.'09)
Owner : El-Khafji Joint Operation /Saudi Oil Company
Client : Petrojet
Scope : All Electrical and instrumentation Package

Environmental

Alexandria East Waste Water Treatment Plant (EWTP)

Total Man-Hours : 249,735
From : (May. '13) to (Apr. '15)
Owner : Ministry Of Housing, Utilities And Urban Development
Client : Degremont S.A.
Scope : All Electrical Package

Petrochemicals

PVC, Offsite & Utilities facilities

Total Man-Hours : 500,600
From : (Nov.'09) to (Feb.'10)
Owner : TCI Sanmar Chemicals LLC
Client : TCI Sanmar Chemicals LLC
Scope : All Electrical and instrumentation Package

Alcohol Ethylene Project (AEP)

Total Man-Hours : 350,000
From : (May. '13) to (Oct. '14)
Owner : TCI Sanmar
Client : TCI Sanmar
Scope : All Electrical and instrumentation Package

Alex Fiber Company - AFCO

Total Man-Hours : 170,000
From : (Sep. '08) to (Dec. '09)
Owner : Alex Fiber CO. (S.A.E)
Client : Alex Fiber CO. (S.A.E)
Scope : All Electrical and instrumentation Package

Ethylene and Utilities Project

Total Man-Hours : 100,000
From : (Nov. '13) to (Nov. '14)
Owner : ETHYDCO Petrochemical
Client : Petrojet
Scope : All Electrical Package

Fertilizers

Misir Oil Processing Company (MOPCO)

Total Man-Hours : 80,600
From : (Mar.'07) To (June.'08)
Owner : Misr Oil Processing CO.
Client : ThyssenKrupp UHDE GMBH
Scope : All instrumentation Package

Helwan Fertilizers

Total Man-Hours : 80,000
From : (Jan.'06) to (Dec.'06)
Owner : Helwan Fertilizers Company
Client : ThyssenKrupp UHDE GMBH /ABB Automation
Scope : All instrumentation Package

Egyptian Fertilizers EFC II

Total Man-Hours : 70,000
From : (May.'05) To (May.'06)
Owner : Egyptian Fertilizers CO.
Client : ThyssenKrupp UHDE /Orascom / ABB Automation
Scope : All instrumentation Package

Ammonium Sulphate

Total Man-Hours : 60,000
From : (Oct. '12) to (Jul. '13)
Owner : Alex Fert Co.
Client : Alex Fert Co.
Scope : All Electrical and instrumentation Package

Power Stations

Beni Swef power station (2 x 1200MW Combined Cycle)

Total Man-Hours : 1,200,600 - Estimated
From : (Mar. '16) to (Nov. '17) - Estimated
Owner : Middle Egypt Electricity Distribution Co.
Client : Power system projects (PSP)
Scope : All Electrical and instrumentation Package

Attaqa Power Station (2 x 170 MW Simple Cycle)

Total Man-Hours : 250,000
From : (Mar. '15) to (Dec. '15)
Owner : East delta electrical production CO.
Client : Power system projects (PSP)
Scope : All Electrical and instrumentation Package

Banha Power Station (750 MW Combined Cycle)

Total Man-Hours : 87,500
From : (Jul. '13) to (May. '14)
Owner : Middle delta electrical production CO.
Client : Ansaldo
Scope : All Electrical and instrumentation Package

HRSG'S OF 750 MW Sidi Krir Combined

Total Man-Hours : 60,000
From : (May.'09) To (Feb.'10)
Owner : West Delta Electricity Production CO.
Client : Nem Industrial & Utilities Boilers /Project Services CO. (PSC)
Scope : All Electrical and instrumentation Package

Power Stations

Nubaria Power Station 2 x 750 MW GTG

Total Man-Hours : 55,000
From : (Feb.'05) To (Aug.'05)
Owner : West Delta Electricity Production CO.
Client : Siemens PG / DSD / Project Services CO. (PSC)
Scope : All Electrical and instrumentation Package

Talkha Power Station

Total Man-Hours : 55,000
From : (July.'05) To (June.'06)
Owner : West Delta Electricity Production CO.
Client : Siemens PG / DSD / Project Services CO. (PSC)
Scope : All Electrical and instrumentation Package

EEHC 5 X 2 X 25MW Fast, Mobile & Flex. Power

Total Man-Hours : 40,000
From : (May. '15) to (Jul. '15)
Owner : Egyptian Electricity Holding Company (EEHC)
Client : El Sewedy Electric Distribution / General Electric (GE)
Scope : All Electrical Package

Cement Plants

6,000 TPD Clincker Line - Ramliya

Total Man-Hours : 365,000
From : (Apr. '07) to (May. '08)
Owner : Arabian Cement Company (ACC)
Client : FLSMIDTH / ESACO S.A.E
Scope : All Electrical and instrumentation Package

El-Sewedy Cement Factory

Total Man-Hours : 220,000
From : (Feb. '10) to (May. '11)
Owner : El-Sewedy Cement Company
Client : Asec Automation ASA (EPC Contractor)
Scope : All Electrical Package

Assiut Cement Factory

Total Man-Hours : 100,000
From : (Feb. '11) to (Feb. '12)
Owner : Building Material Industry Company (BMIC)
Client : Asec Automation ASA (EPC Contractor)
Scope : All Electrical Package

Industrial

Suez Steel Factory

Total Man-Hours : 271,000
From : (Feb. '12) to (Mar. '13)
Owner : Suez Steel Co.
Client : Asec Automation ASA
Scope : All Electrical and instrumentation Package

Beet Sugar Plant

Total Man-Hours : 150,000
From : (Mar. '11) to (May. '13)
Owner : United Sugar Company (SAVOLA)
Client : Hassan Allam Sons (HAS)
Scope : All Electrical Package

Gulsan Project

Total Man-Hours : 141,266
From : (Feb. '13) to (Apr. '15)
Owner : Gulsan Egypt
Client : Hassan Allam Sons
Scope : All Electrical Package

Al Gawhara Ceramic & Porcelain New Factory

Total Man-Hours : 136,200
From : (OCT.'08) To (Sep.'09)
Owner : El - Ezz Group
Client : ESACO S.A.E
Scope : All Electrical Package

Industrial

Float Glass Plant

Total Man-Hours : 112,800
From : (Jun. '09) To (May.'10)
Owner : Sphinx Glass Factory
Client : IANUA SPA
Scope : All Electrical Package

MASAR Engineering Industries Factory

Total Man-Hours : 105,000
From : (Aug.'11) To (Feb.'12)
Owner : MASAR Engineering Industries
Client : MASAR Engineering Industries
Scope : Epic turn key contract

Ezz Steel Factory - El-Sokhna

Total Man-Hours : 73,000
From : (Oct. '14) to (Apr. '15)
Owner : Ezz Steel Co.
Client : Danieli
Scope : Provisional of Electrical and Instrumentation teams.

ANSDK – New Ladle Furnace (NO. 3)

Total Man-Hours : 60,000
From : (Jan.'05) To (Jul.'05)
Owner : Alexandria National Iron & Steel CO.
Client : Projects Services CO. "PSC"
Scope : All Electrical Package

Official Exclusive Distributor for

EA Technology

EA Technology Based in UK, originated in 1966 as a groundbreaking research and development organization serving the electricity industry. Now it is one of the leaders companies in electrical assets Predictive & condition-based maintenance instruments, through the most innovative and accurate techniques, especially when we talk about "partial discharge testing & monitoring in electrical assets"

Official Exclusive Distributor for

Quartzteq Company

Quartzteq GmbH is engineering and manufacturing Switzerland Company, and one of the English companies group "Quartzelec", Quartzteq is specialized in monitoring and diagnostic of insulation and Partial discharges analyzing for all types, sizes generators and motors with voltage more than 4kv.

They cooperate with generators and motors O& M manufacturers, as well with end users (Power generation companies, Industries, Oil & Gas Companies and others).

Official Distributer for
EMT Company

Energy Maintenance Technologies Limited (EMT) is an English Company supply a range of Instrumentation of SF6 products for Electricity Transmission and Distribution maintenance, they are the global leader in SF6 Analysis and Handling

Official Distributer for
HaakeTechnik

HaakeTechnik GmbH is a German Company has been successfully active in the area of developing and producing safety technical devices. Haake design and manufacture safety edges, safety bumpers, safety mats, switches and trapped-key interlocking systems as well as valve interlocks.

Your route to the future

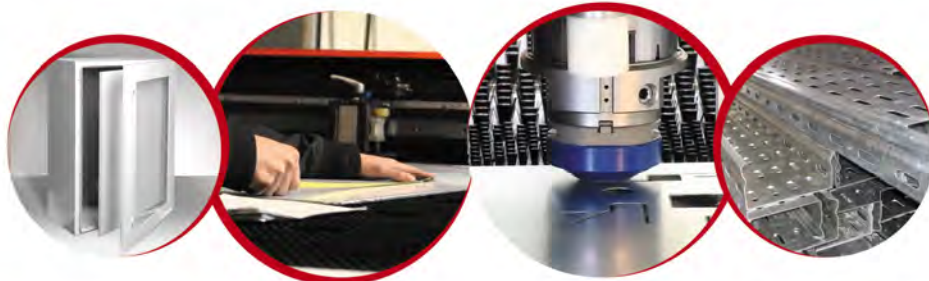

About MASAR engineering industries S.A.E.

MASAR engineering industries S.A.E. was founded in 2010 in Alexandria, EGYPT as a company specialized in sheet metal works, having multi divisions to produce precision and complex works.

A manufacturing yard is designated in Borg EL Arab industrial area 40 km to the west of Alexandria with a total area of almost **4,500 m²** and production capacity of **70 Ton /shift/month**.

The success of **MASAR** engineering industries S.A.E depends on the commitment and efforts of every employee to offer a quality level of service to our customers. As a precision sheet metal facility **MASAR** engineering industries S.A.E offers production in low cost levels with cutting edge technologies.

We are electronically linked with our customers from the engineering stage to the final quality inspections prior to shipment, **MASAR** engineering industries S.A.E is as committed to manufacture what you design and/or select. Thus, our business is to fulfill your designated need.

Services

We provide our customers with fresh ideas for production of powerful qualitative sheet metal products. As a precision sheet metal facility we offer production in high quality and low cost levels using high technology machinery. We depend on the commitment and efforts of every employee to offer a quality level of service to our customers.

Our services include but not limited to the following:

- Development of customer perceptions and ideas.
- CAD design & Import data (dxf / dwg / step).
- CNC punching, NC cutting & CNC bending.
- Welding of carbon steel, stainless steel and aluminum.
- Copper processing
- Assembly of components and devices.
- Prototype to mass production.
- Erection work through ACCURATE group sister companies.

Equipment

We use cutting edge technologies to provide our customers with new products and innovations that, takes the traditional sheet metal industry to higher levels.

Our equipment include but not limited to the following:

- 20 ton CNC turret punching machine
- 100 ton 3 meter CNC press brake machine
- 100 ton 3 meter Conventional shear press machine
- 120cm shear press machine
- 3 rollers bending machine thickness 4 mm
- Copper processing machine
- 25kva Spot welding machine
- 250A mig / mag welding machine
- Semi-automatic grinding machine
- 20 hp 1000 liter compressor

Products

Cable Management System

- Cable tray
- Cable ladder
- Cable duct
- Wire mesh cable tray
- Unistrut
- Accessories (bracket, elbow, tee, riser, reducer,....)

Material: Carbon Steel (pre-galvanized & hot-dip galvanized), , Stainless Steel & Aluminum.

Electric Enclosures

- Floor standing enclosure
- Wall mounted enclosure
- Operating Consoles
- Flush Mounted enclosure
- Network cabinet

Material: Electrostatic painted carbon steel & Stainless steel 304 or 316.

Products

Fire Cabinets

- Single cabinet
- Vertical double cabinet
- Horizontal double cabinet
- Fire extinguisher cabinet

Material: Electrostatic painted carbon steel & Stainless steel 304 or 316.

Photovoltaic Mounting System

Photovoltaic mounting systems are used to fix solar panels on surfaces like roofs, empty plots etc.

These mounting systems enable retrofitting of solar panels on roofs or as part of the structure of the building.

Products

Customized Products

Non-standard products upon customer requirements including design and prototyping.

Official Distributer for
Caddy - Erico

CADDY® SPEED LINK is an American universal supporting & mounting system designed to reduce installation time.

A cost-effective alternative to jack chain, threaded rod, strut and strut nuts, this innovative system has the versatility to meet virtually all your support needs.

Official Distributer for
Aiscan Company

Aiscan is a Spanish Company, they are dedicated to the production and marketing of insulation for pipes and electrical protection.

The range of our products ranges from small to large diameters in both rigid and flexible pipes and accessories needed to make facilities Utilities in line with the requirements of quality, safety and functionality present.

Dedication beyond expectation

About ACCURATE electromechanical projects W.L.L.

ACCURATE electromechanical projects W.L.L. is a new generation engineering firm established in 2011 and centrally located in Doha, Qatar.

ACCURATE electromechanical projects W.L.L. was formed with the expressed aim of being able to offer a complete alternative and more efficient approach to the traditional method of managing a project, by providing coordinated Mechanical, Electrical, Plumbing, Firefighting / Detection and Special Systems all within one company and under the same roof and covering engineering, procurement and construction activities.

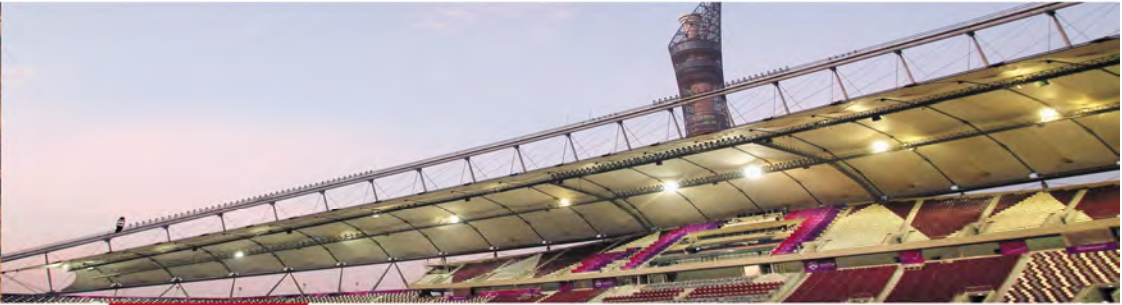

Our environment along with its unique structure allows for more continuity and communication between each trade, often presenting more opportunities for value engineering and swift conflict resolution between disciplines therefore achieving optimal results with minimal problems and delays.

Our focus is directed toward maintaining a highly competent staff who approach each job with a positive, hard-working attitude. Such quality staff, the building blocks of the firm, are a vital ingredient for successful projects.

An effective management system is equally essential. It is the management system that promotes the services being timely and coordinated smoothly between the entire company departments. It is also through a strong management system that the in-house quality control becomes an embedded culture for all we do.

We always look to seize new opportunities when they arise and then allow our team to be creative on new and challenging projects from the Concept to the completion.

Services

Mechanical

ACCURATE electromechanical projects W.L.L. Offers a full range of Mechanical construction services from Elevators to HVAC Ducting including Design, Manufacture, Installation and Maintenance.

Our highly skilled Mechanical team has proven experience in many various types of facilities. From new construction to existing building renovations and enhancements, our Mechanical experience is extensive.

Supply and Erection For:

- Chilled Water Systems
- DX Equipment
- Ductwork Fabrication & Installation
- Ventilation Systems
- Equipment Setting & Alignment
- Duct & Piping Insulation
- Inspection, Surveys & Reports of Existing HVAC Installations

Services

Electrical

At ACCURATE electromechanical projects W.L.L. we offer a full range of Electrical and Automation services. **ACCURATE's** team of Electricians, Engineers and Technicians can undertake your full scope of Electrical works from CAD Design, Installation and Maintenance of your project.

ACCURATE electromechanical projects W.L.L. has put together a team of highly skilled professionals from within the industry, this allows our Electrical Department the ability to provide contracting services from small to large projects within the Residential, Commercial and Industrial sectors.

Supply and Erection For:

- | | |
|--|----------------------|
| • Medium and High Voltage Distribution | • Residential |
| • Infrastructure and Underground Utilities | • Commercial |
| • Lighting & Dimming Systems | • Industrial |
| • Grounding Lightning Protection | • Fire Alarms |
| • Emergency Generators and Systems | • Security Systems |
| • UPS Backup Systems | • Telecommunications |

Services

Plumbing

The **ACCURATE** electromechanical projects W.L.L. team can supply complete hydraulics, plumbing and drainage solutions for a range of businesses and construction types, within the Residential, Commercial and Industrial sectors.

Because we understand that no two projects will ever be identical, our plumbing team works closely with our design team to ensure that all the requirements for your particular project will be met.

Supply and Erection For:

- Housing Developments
- Condominiums & Apartment complexes
- Commercial
- Sewage Treatment Plants
- Site Water & Sewage Utilities
- Potable Water Booster Systems
- Residential
- Industrial
- Lift Stations

Services

Firefighting/Detection

ACCURATE electromechanical projects W.L.L. provides a comprehensive range of passive and active Fire Protection services and solutions from the supply of extinguishers to the Design, Installation and Servicing of multimillion dollar fire protection and detection projects.

Our **ACCURATE** team is highly trained in the complexities of installing Fire Protection systems in Commercial and Industrial buildings. A clear fire safety strategy is necessary due to the number of potential occupants in Commercial and Industrial buildings, as well as the potential loss d to business down time.

ACCURATE electromechanical projects W.L.L. have the latest knowledge of fire behavior in Commercial and Industrial buildings and can provide comprehensive fire safety design and advice to the required safety standards.

Supply and Erection For:

- Housing Developments
- Condominiums & Apartment complexes
- Commercial Kitchens
- Alarms & Special Systems
- Commercial
- Industrial
- Hotels
- IT Rooms
